

CTL Północ

CTL Logistic is one of the largest logistic groups in Europe.

Translation of the attached reference;

CTL Północ confirms that we cooperate with ACG Technologie Ekologiczne for the last two years and continue to do so.

ACG Technologie Ekologiczne supplies us with deemulsifier EG540 designed for used oil regeneration, we have found high efficiency of product, with maintaining high ecological standards, it has allowed us to regenerate used oils in a very effective way especially in our marine oils recycling process.

ACG Technologie Ekologiczne is supporting us in very professional way and we can always depend on their specialists support.
